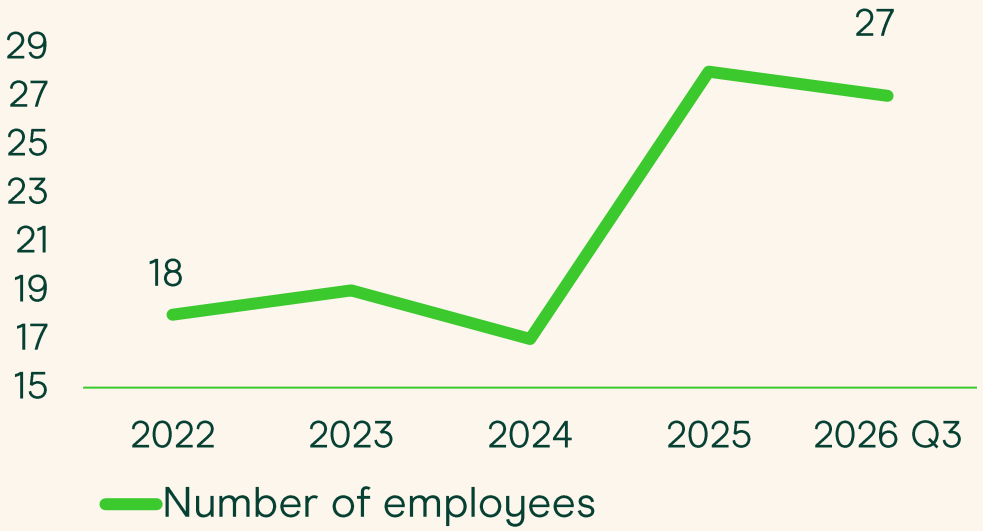
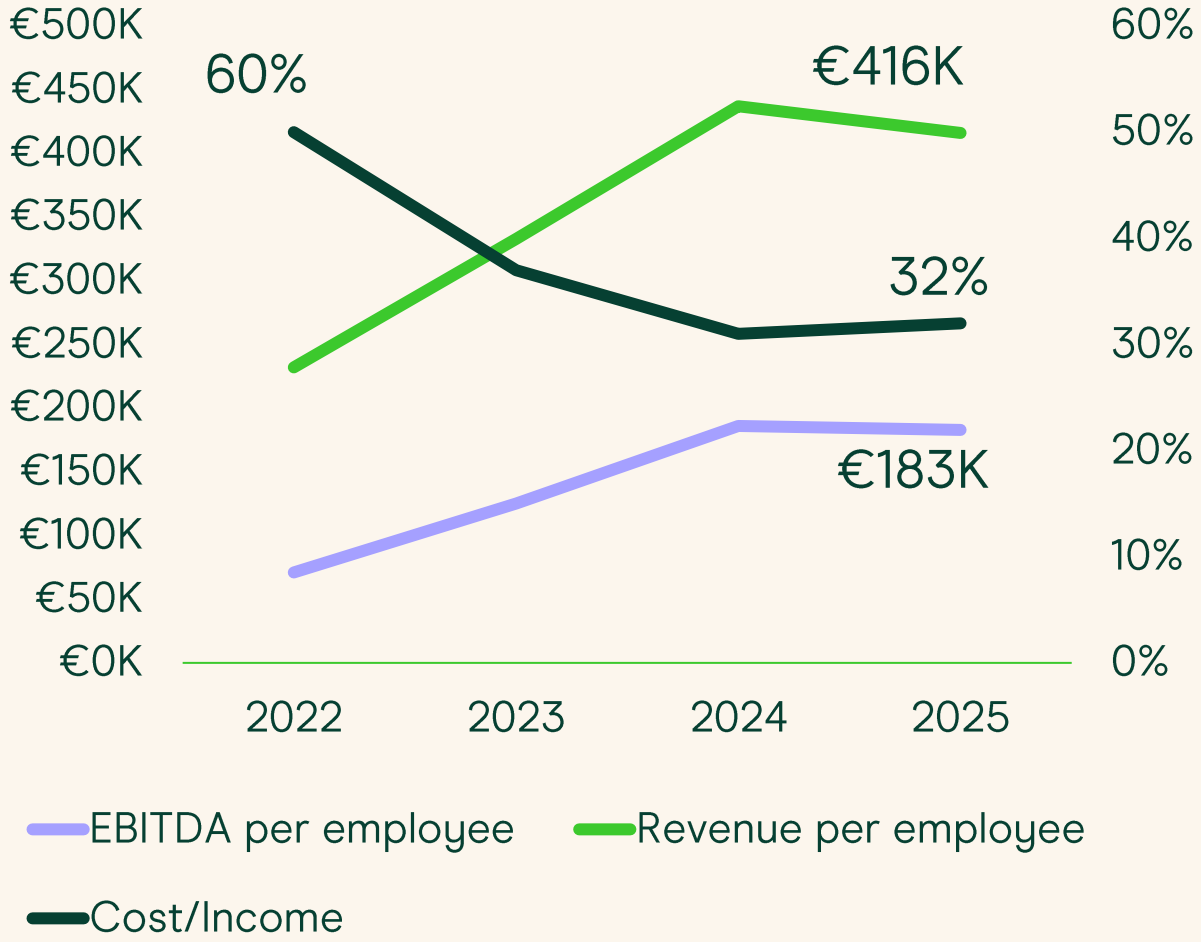
Efficient Operations

BB FINANCE

The company focuses on innovative and automated solutions. Using different kinds of technology makes business faster and gives employees time to be more effective in their day to day tasks.





About Us

BB FINANCE

Future

As part of our long-term business plan, our strategic goal is to establish ourselves as the preferred partner for consumer financing solutions amongst private individuals in Estonia.

Responsibility

Responsible lending is at the heart of the company. The company operates under the laws of the Republic of Estonia and is under the supervision of Estonian Financial Supervision and Resolution Authority.

Team of Professionals

Our relatively small team is very efficient and has key specialists in the field. Key functions: Credit Analysis, IT Reporting, Marketing, Client Support, Legal and Compliance, AML.

Technology

The Company focuses on user experience and a fast and convenient service. Usage of technology in every aspect of our business allows us to analyse and make better decisions, report, grow and achieve efficiency.

BB FINANCE

Responsible lending is at the heart of the company.

BBF adheres to the rules in all its marketing activities and abides by fair market practices.

Responsible Lending

BB FINANCE

As per our internal regulations, approved by Estonian Financial Supervision and Resolution Authority (commercial registry No 11306564), we use a combination of responsible lending practices to assess the creditworthiness of each incoming client.

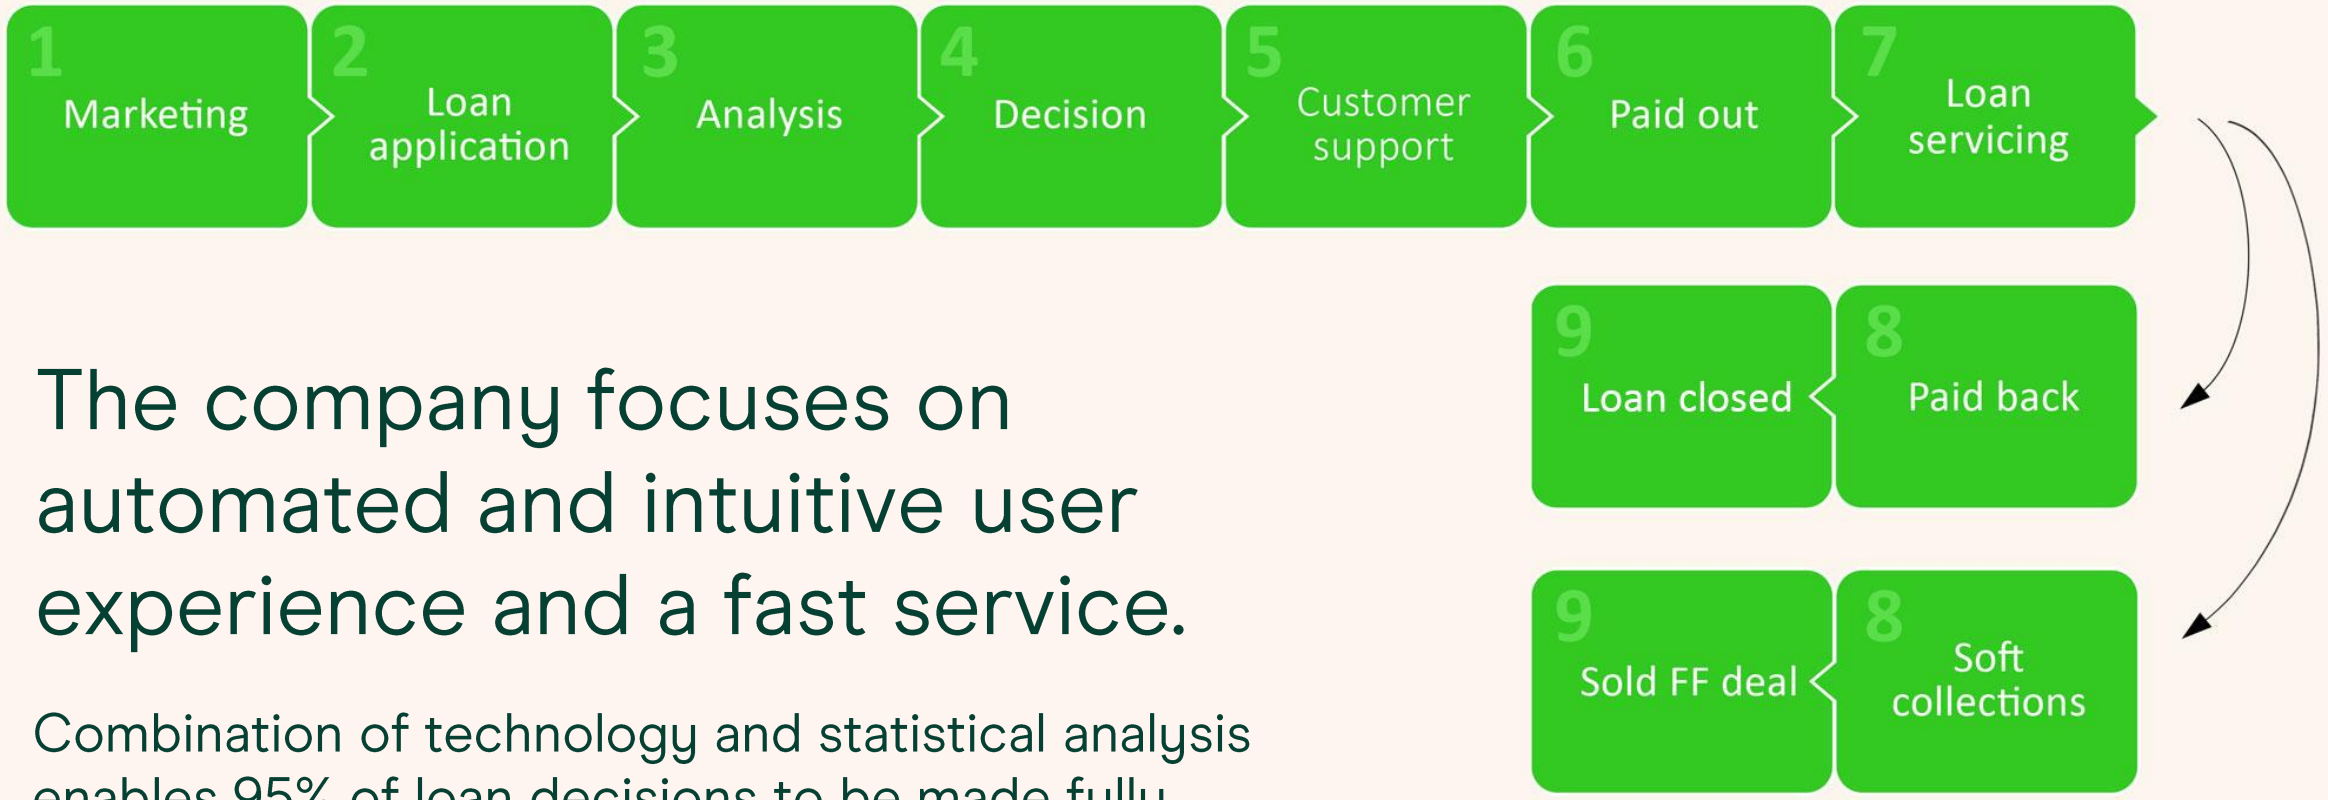
Before anything else, the customer is asked to verify their identity using one of many established methods (ID-card, Smart-ID, Mobile-ID) and register as a user. Among other information, the registration process requires the customer to enter contact information, addresses, income and financial obligations.

Income, financial obligations and other information (such as existing payment disturbances) is confirmed during the loan application process using data from registries.

In addition, each client is scored using a regularly updated internal credit risk model. This model is both used to reject clients over a certain risk estimation and to assign a maximum limit to the credit that can be issued.

Loan Process

BB FINANCE



The company focuses on automated and intuitive user experience and a fast service.

Combination of technology and statistical analysis enables 95% of loan decisions to be made fully automatically.

Recognitions

BB FINANCE

BB Finance is proud of its achievements and every year we try to be better than the previous year. Always towards to the new heights together with the team. We have been recognized with several awards.

- The Good Working Environment Award - The Labor Inspectorate recognizes companies that create a good, healthy working environment and ensure safe working conditions for employees. In 2023, we were among the last two finalists. We achieved an honorable second place in the small business category.
- Estonian Diversity Charter - means the company voluntarily commits to promote diversity and equal opportunities among their employees, partners, as well as clients.
- Difference is enriching - the company values diversity, tolerance, equality and equal treatment.
- An organization that values mental health - this shows that the company values the mental well-being of its employees and takes conscious steps to ensure that people's health is maintained at work. BBF has bronze badge in this category.
